Benefits

• Cost-saving

LogiStrap® reduces cost in the supply chain by offering a reusable strap for securing goods to a pallet; significantly lowering packaging, recycling and maintenance expenditure.

• Environmentally Friendly

LogiStrap® will vastly reduce waste when replacing one-use alternatives, like shrink-wrap, stretch-wrap, plastic and metal tie, helping meet your environmental targets.

• Improved Health & Safety

LogiStrap® provides a highly visible accessory which eliminates hazardous tools and reduces risk of injury from falling goods.

• Quick and Easy

LogiStrap®'s can easily be opened and closed which will reduce the time people will use to secure a load and eliminate time required in movement to, and maintenance of, alternative equipment. No tools are required.

• Versatile

LogiStrap® can be used for many different applications and was designed in multiple lengths to address different needs.

• Protective

LogiStrap® is very soft which avoids the scratching of surfaces.

• Supports labelling

LogiStrap® does not hide barcode labels and other information on your shipments and, therefore, speeds up your process for incoming and outgoing goods.
